CHARLIE JAMES Z. ABEJO

Full-Stack Web & Mobile Developer | TypeScript | React Native | Go | Python

Misamis Oriental, Philippines (Remote) | +63 985 612 2843 | capstonee2@gmail.com
github.com/CharlieJamesGwapo | portfoliobboy.vercel.app

PROFESSIONAL SUMMARY

Full-stack web and mobile developer with **5+ years building and shipping software** across web, iOS, and Android. Experienced delivering products end to end, from requirements and data modeling to user interfaces, backend services, deployment, documentation, and handover. Comfortable working directly with non-technical stakeholders and owning dependable systems across TypeScript, React, React Native, Go, Python, .NET, PostgreSQL, and cloud infrastructure.

CORE SKILLS

Frontend & Mobile	React, Next.js, TypeScript, React Native (Expo), Android (Java/Kotlin), Vue.js, Angular, Tailwind CSS, Zustand
Backend & APIs	Go (Gin), Python (FastAPI, Django, Flask, Celery), Node.js/Express, C#/.NET, PHP/Laravel, REST, GraphQL, WebSockets, webhooks
Data & Infrastructure	PostgreSQL, Supabase, Neon, MySQL, Firebase, Redis, AWS Lambda, Docker, Linux VPS, Vercel, GitLab/Buddy/Jenkins CI/CD
Systems & Tools	CRM integrations, bidirectional sync, JWT, RBAC, audit trails, OTP/2FA, payments, reconciliation, Git, GitHub, Claude Code, GitHub Copilot

PROFESSIONAL EXPERIENCE

AI Full-Stack Engineer - Zalio · Momentum, Australia · Remote
Jun 2026 – Present

- Building zalio.ai (gym CRM and operations platform), the Alex AI voice agent, and hasti.com.au (AI reception and lead response) across web, mobile, voice, and automation.
- Lead engineer on the Zalio CRM module (2,000+ commits): omnichannel lead inbox with SLA alerts, forms, campaigns, retention workflows, revenue/retention dashboards, and Twilio browser calling.
- Built Alex, a self-hosted AI voice agent on LiveKit and GPT-Live over Twilio SIP, with evidence-grounded research calls, voicemail detection, a restart-safe call queue, and cited AI call reviews.
- Designed n8n integrations with durable receipts, idempotency keys, and reconciliation linking the voice backend, CRM, GTM engine, calendar, and email.
- Shipped the Hasti Client iOS and Android app (Expo, Fastify, PostgreSQL) in 46 pull requests over nine days, plus bidirectional Python CRM sync (Celery, Redis, durable Postgres jobs) and automated data-migration reconciliation.

Stack: Next.js 16, React 19, TypeScript, Encore.ts, PostgreSQL, LiveKit, Twilio, n8n, Expo, Python

Full-Stack Developer - Rooche Digital Company
Jan 2026 – Mar 2026

- Delivered client dashboards and web applications with React, Next.js, Angular, Node.js, and FastAPI backends.
- Built validated REST and GraphQL APIs, Firebase/Supabase authentication, row-level security, and real-time WebSocket/webhook updates.
- Maintained GitLab, Buddy, and Bitbucket CI/CD with preview deployments and pytest quality gates.

Stack: Python, FastAPI, Node.js, React, Next.js, Angular, PostgreSQL, Firebase, Supabase, Docker

Full-Stack Developer - Australian Fintech · Lending Platform
Jan 2024 – Dec 2025

- Re-platformed Go and Node.js microservices to .NET for a regulated Australian fintech lending platform, standardizing logging, error handling, and deployments.
- Built Python and .NET AWS Lambda workflows for partner banking and lending integrations.
- Owned JSON-RPC, WebSocket, webhook, reconciliation, reporting, and partner-feed automation with staged CI/CD and rollback support.

Stack: C#/.NET, Python, Go, Node.js, AWS Lambda, PostgreSQL, REST, GraphQL, Buddy CI/CD

LIVE PRODUCTS & DEMOS

- **Alex AI voice agent** - live callback demo - hasti.com.au
- **Zalio** - gym CRM & operations platform - zalio.ai
- **Momentum Strength** - commerce & 3D product UX - momentum-strength.vercel.app
- **One Ride Balingasag (OMJI)** - Android app - Google Play
- **G2 POS System** - g2possystem.vercel.app
- **Study Pulse** - study-pulse-ten.vercel.app
- **Client sites:** shayneanddr.netlify.app | vincelloyd.netlify.app | laarni.netlify.app
- **Hasti** - AI reception & speed-to-lead - hasti.com.au
- **GymFactories** - gym research & RFQ platform - gymfactories.com
- **HSIE Site Scoring** - property intelligence prototype - health-dev-three.vercel.app
- **E-Cycle Hub** - waste-pickup scheduling - ecyclehub.vercel.app
- **ReflectiCSS** - reflecticss.vercel.app

SELECTED PROJECTS

One Ride Balingasag (OMJI) - Google Play

Started Apr 2026

Built a complete Balingasag ride-hailing and delivery platform covering Pasugo, Pasabay, Pasundo, and local store delivery. The platform supports fare estimates, maps, live rider tracking, scheduled bookings, OTP/JWT authentication, payments, ratings, SOS, and rider/store/admin operations.

Stack: React Native, Expo, TypeScript, Go, Gin, PostgreSQL, GORM, WebSockets, React

OMJI Internet Access & Billing System

Apr-Jun 2026

Developed an operations platform for internet cafes, hotspots, and small ISPs with prepaid time billing, voucher generation, multi-station management, revenue reporting, per-account permissions, and MikroTik RouterOS integration across web, mobile, and endpoint-agent clients.

Stack: TypeScript, Go, React, Docker, MikroTik RouterOS, Web and mobile clients

MOIST Alumni Tracking System

Jan-Aug 2025

Created a secure alumni registration, profile management, records, and administrative reporting platform with role-based access, audit trails, relational data modeling, analytics, and OTP/2FA over SMS and email.

Stack: PHP, Laravel, MySQL, JavaScript, RBAC, OTP/2FA

Security & AI/ML Projects (personal)

May – Jul 2026

- **Advanced E-commerce Traffic Filtering System:** Cloudflare WAF rules, IP/ASN analysis, bot detection, and managed challenges tuned for low false positives.
- **AI-Powered Bot Traffic Detection:** Python anomaly detection over traffic logs (request frequency, user-agent patterns) with detection reports.
- **Web Security Monitoring Dashboard:** surfaces suspicious requests, IPs, and traffic patterns with alerting and documented test scenarios.
- Also built custom Shopify solutions and Cloudflare-based anti-bot protections.

Additional projects: Filtra Coffee POS, E-Cycle Hub waste-pickup scheduling, Jolly Ride, and native Android massage booking applications.

EDUCATION

BS in Information Technology - Misamis Oriental Institute of Science and Technology

2022 - 2026

Dean's Lister, 2nd and 3rd Year (Ranked 2) | TOPCIT participant (2024-2025)

CERTIFICATIONS & TECHNICAL TRAINING

Anthropic & AI - 11 records

- **Model Context Protocol: Advanced Topics** - Anthropic, Jul 2026
- **AI Fluency for Builders** - Anthropic, Jul 2026
- **AI Capabilities and Limitations** - Anthropic, Jul 2026
- **Introduction to Subagents** - Anthropic, Jul 2026
- **Claude 101** - Anthropic, Jul 2026
- **AI Fluency: Framework & Foundations** - Anthropic, Jul 2026
- **Introduction to Agent Skills** - Anthropic, Jul 2026
- **Introduction to Model Context Protocol** - Anthropic, Jul 2026
- **Claude Code in Action** - Anthropic, Jul 2026
- **Teaching the AI Fluency Framework** - Anthropic, Jul 2026
- **Building with the Claude API** - Anthropic, Jul 2026

Technical & professional - 12 records

- **Java SE 8 Programmer I** - Java Developer, Jul 2024; expires Dec 2035
- **Programming in HTML5 with JavaScript and CSS3** - Codemy, May 2025; expires Dec 2032
- **Databases with SQL** - Harvard CS50
- **Windows Server 2012 Training** - ITFreeTraining
- **MongoDB Database Training** - MongoDB
- **JavaScript Programming** - Bro Code
- **Go Programming** - CS50, Jul 2024; expires Feb 2034
- **Full-Stack Web Development Certification** - Codemy, Apr 2025; expired Jul 2025
- **Manage AD DS Domain Controllers & FSMO Roles** - Microsoft
- **Active Directory** - ITFreeTraining
- **PHP for Web Development** - CodeMy
- **HTML and CSS** - Telugu

AVAILABILITY

Available for remote full-stack, backend, and mobile opportunities. Flexible overlap for US and Australian business hours. Independent, detail-focused, and comfortable owning delivery from architecture through deployment, documentation, and maintenance.
