WORK EXPERIENCE

Lead Full-Stack Developer - AI & CRM Systems

Zalio / Momentum | Australia, Remote | June - September 2026

- Led custom CRM and gym-management delivery spanning lead enquiries, memberships, bookings, payments, operational dashboards and React/Next.js interfaces.
- Built Alex/Hasti voice AI with LiveKit, OpenAI, Twilio and n8n, linking calls with CRM, calendar, email and human-approved follow-up workflows.
- Delivered Expo mobile features and Python/Celery/Redis/PostgreSQL synchronization with idempotency, retries and financial-record reconciliation.

Founding Engineer & Lead Full-Stack Developer

OMJI | Remote | March 2024 - May 2026

- Led ISP, school and employee application delivery; built subscriber billing, payment-verification and customer-portal workflows with MikroTik integration.
- Developed Expo attendance tools and private school applications, including the St. John Baptist High School website and RFID entry/exit monitoring.
- Built ONE RIDE mobile, web and administrative workflows for rides, delivery and local-store orders using React Native/Expo, Go/Gin and PostgreSQL; customer app published on Google Play.
- Built Piso Wi-Fi/vendo and LAN/site-monitoring tools with online/offline visibility and operational administration.

Full-Stack Developer

Rooche Digital Company | Remote | January - March 2026

- Built Node.js and Python/FastAPI services, REST APIs, and React/Next.js and Angular dashboards for client applications.
- Integrated Firebase/Supabase authentication, row-level security and real-time data; maintained preview deployments, CI/CD and automated quality checks.

Full-Stack Developer

Super Deal | Australian Fintech Platform, Remote | January 2024 - December 2025

- Developed lending web and mobile applications, integrating Vue.js interfaces with Node.js and C#/.NET services through REST APIs.
- Developed C#/.NET microservices as part of Go and Node.js migration work, including logging, error handling and deployment workflows.
- Built AWS Lambda integrations, webhooks, WebSockets and reconciliation/reporting automation for banking and loan workflows.

FREELANCE & INDEPENDENT WORK

Freelance Full-Stack Developer - Project-Based

Independent client engagements and personal products | 2023 - Present
